SKILLS

Languages:	C++, Java, C, Python, R, Kotlin
Frameworks/Libraries:	Tableau, Jupyter, Numpy, Pandas
Tools/Platforms:	SQL, Git, GitHub, Excel
Soft Skills:	Teamwork, Decision Making, Quick Learner

PROJECTS

Flight Fare Analysis Using Python	Jun' 2024 - Aug' 2024
- Analyzed data to identify patterns and trends using statistical methods. - Utilized Pandas for data manipulation and Matplotlib/Seaborn for data visualization using this it helps to support business decisions. - Presented insights and recommendations to optimize travel costs for better financial planning.	
Tableau Dashboard for Sales Performance	Sep' 2024 - Oct' 2024
- Created an interactive Tableau dashboard to visualize sales performance across different regions and product categories. - Integrated filters, trend analysis, and key metrics to enhance decision-making. - Improved data presentation, enabling stakeholders to identify growth opportunities and revenue drivers.	
Customer Segmentation using Clustering	Mar' 2024 - Apr' 2024
- Applied K-means clustering algorithm to segment customers based on purchasing behavior. - Performed data preprocessing using Python to improve clustering accuracy. - Delivered insights on customer segments, helping businesses tailor marketing strategies for better engagement.	

TRAINING

Fifth Force Data Analysis with Python	Jun' 2024 - Jul' 2024
- Learned and applied technologies like Python, implemented data manipulation, data visualization, statistical analysis for extracting insights from data. Gained hands-on experience with real-world datasets. - Gained knowledge of Excel, by using various filters, pivot tables, pivot charts made interactive dashboards for insights.	

CERTIFICATES

Advanced Distribution Systems NPTEL	Oct' 2024
SQL Udemy	Nov' 2024
Excel Skills for Business Analytics Coursera	Apr' 2024
Data Analysis with Tableau Coursera	May' 2024

ACHIEVEMENTS

Solved 150+ LeetCode problems across all difficulty levels, with a strong focus on data structures and algorithms.	Apr' 2025
Built a full-stack generative AI web app using ComfyUI workflows, LoRA fine-tuning, and cloud deployment in under 36 hours.	Mar' 2024

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 2022 - Present
Computer Science and Engineering; CGPA: 7.68	
Kendriya Vidyalaya	Shadnagar, Telangana
12 th (Science)	Jun' 2021 - Mar' 2022
Percentage: 80%	
Tagore High School	Shadnagar, Telangana
10 th (Science)	Jun' 2020 - Apr' 2021
Percentage: 84.3%
